FAO FISHERIES DIVISION BIOLOGY BRANCH DOCUMENTS

Three series of documents are issued by the Biology Branch. These are not official FAO publications; they are given a restricted external distribution and this fact should be indicated if they are cited. Most of the documents in these series are prepared as working papers for meetings, or are summaries of information for the use of member governments, organizations, and specialists concerned. The series are:

DOCUMENTOS DE LA SOUS-DIVISION DE LA BIOLOGIE DIVISION DES PÊCHES DE LA FAO

La Sous-Division de la Biologie publie trois séries de documents; ceux-ci ne figurent pas parmi les publications officielles de la FAO, mais font seulement l'objet d'une distribution extérieure restreinte, aussi convient-il de le préciser lorsque ces documents sont cités. Il s'agit le plus souvent de documents de travail préparés pour les réunions, ou de résumés d'information à l'intention des gouvernements des pays membres, ainsi que des organisations et spécialistes intéressés. Ces séries sont les suivantes:

DOCUMENTOS DE LA SUBDIRECCION DE BIOLOGIA DIRECCION DE PESCA DE LA FAO

La Subdirección de Biología publica tres series de documentos que no constituyen publicaciones oficiales de la FAO, siendo objeto de distribución extema limitada, circunstancia que debe indicarse, caso de ser citados. La mayoría de los títulos que figuran en dichas series son documentos de trabajo preparados para reuniones o resúmenes de información destinados a los gobiernos de los Estados Miembros, organizaciones y especialistas interesados. Las series son las siguientes:

FAO Fisheries Biology Report FB/R (No.)
FAO Fisheries Biology Synopsis FB/S (No.)

Special groups of synopses are identified by the following symbols:

CART Information concerning the living aquatic resources of certain countries and regions.

SAST Data concerning certain species and fish stocks.

MAST Methods and subjects synopses.

OT Oceanography synopses.

IT Limnological synopses.

Des catègories spéciales d'études synoptiques sont identifiées à l'aide des symboles suivants:

CART Renseignements sur les ressources aquatiques vivantes de certains pays et régions.

SAST Données sur certaines espèces et populations de poissons.

MAST Etudes synoptiques sur des méthodes et des sujets particuliers.

OT Etudes océanographiques.

IT Etudes limnologiques

Los grupos especiales de sinopsis se distinguen con las siguientes siglas:

CART Información sobre los recursos acuáticos vivos de algunos países y regiones.

SAST Datos relativos a ciertas especies y poblaciones.

MAST Sinopsis sobre métodos y materias.

OT Sinopsis sobre oceanografía.

IT Sinopsis sobre limnología.

FAO Fisheries Biology Technical Paper FB/T (No.)

Special groups of Technical Papers are identified by the symbols:

RE Indexed lists of names and addresses of experts and institutions drawn from the Registers of Experts and Institutions maintained by Biology Branch.

CB The "World List of Periodicals for Aquatic Sciences and Fisheries", Meetings and Activities Sections from, and the Handbooks for, the "Current Bibliography for Aquatic Sciences and Fisheries", special bibliographies and technical papers concerning documentation and bibliographic problems.

MFS Provisional editions of volumes or sections of "FAO Manuals in Fisheries Science".

Numbers following the symbols are for classifying the document, using the codes of the indexes to the "Current Bibliography for Aquatic Sciences and Fisheries".

Some documents may carry other identification numbers, if, for example, they have been contributed to a meeting for which papers have been marked according to another system; in requesting copies it is sufficient, however, to quote the "FB" number given at the top right-hand corner of the title page.

Des catégories spéciales de documents techniques sont identifiées à l'aide des symboles suivants:

RE Listes indexées des noms et adresses d'experts et institutions tirés des Registres des Experts et des Institutions tenus à jour par la Sous-Division de la Biologie.

CB Le "Répertoire mondial de périodiques concernant les sciences aquatiques et la pèche", les Sections des Réunions et Activités, tirées de la "Current Bibliography for Aquatic Sciences and Fisheries", le manuel de cette bibliographie ainsi que des bibliographies particulières et des articles techniques sur les problèmes de documentation et de bibliographie.

MFS Editions provisoires de volumes ou sections des "Manuels FAO de la science des pêches".

Les chiffres qui accompagnent les symboles sont destinés à la classification du document au moyen des codes d'indexation de la "Current Bibliography for Aquatic Sciences and Fisheries".

Il arrive que certains documents portent d'autres numéros d'identification, comme c'est le cas s'ils ont été préparés pour une réunion dont les documents ont été marqués à l'aide d'un autre système; mais lorsque l'on demande des copies de ces documents il suffit de mentionner le numéro "FB" figurant en haut et à droite de la page de couverture.

Para distinguir los grupos especiales de documentos técnicos se emplean los símbolos siguientes:

RE Listas clasificadas de nombres y direcciones de expertos tomados de los Registros de Expertos y de Instituciones que se llevan en la Subdirección de Biología.

CB La "Lista mundial de publicaciones periódicas referente a las ciencias acuáticas y a la pesca", las Secciones de Reuniones y Actividades de la "Current Bibliography for Aquatic Sciences and Fisheries", el manual para su manejo, bibliografías especiales y los trabajos técnicos sobre problemas de documentación y bibliografía.

MFS Ediciones provisionales de volúmenes o secciones de los "Manuales FAO de la ciencia de la pesca".

Los números de que van seguidos los símbolos sirven para clasificar el documento, empleándose las claves de los índices de la "Current Bibliography for Aquatic Sciences and Fisheries".

Algunos documentos pueden llevar otros números de identificación si, por ejemplo, son contribuciones a una reunión cuya documentación haya sido marcada con arreglo a otros sistemas. Sin embargo, para solicitar ejemplares basta mencionar el número "FB" que figura en la parte superior derecha de la portada.

PREPARATION OF THIS PAPER

This paper contains detailed indexes to entries in the Current Bibliography for Aquatic Sciences and Fisheries relating to the subject of physical oceanography. Entries are indexed according to the recently revised UDC 551.46 Physical Oceanography. Copies of this revision are available on application from the Chairman of the IAPO Committee on Classification, Dr. Model, Deutsches Hydrographisches Institut, Hamburg. The indexes have been prepared in co-operation with the Royal Netherlands Meteorological Institute.

FAO plans to issue this classification, when available, in the official languages of FAO and of UNESCO. Meanwhile, for the convenience of users of the Current Bibliography, the UDC numbers are supplemented in the present indexes by Subject Headings in English.

PREPARATION DE CE DOCUMENT

Le présent document comporte des indexes détaillés des notices publiée dans la "Current Bibliography for Aquatic Sciences and Fisheries" qui concernent l'océanographie physique. Ces notices sont indexées suivant la CDU récemment revisée, 551.46, Océanographie physique. Des exemplaires de ce texte revisé peuvent être obtenus sur demande adressée au President du Comité de la classification de la IAPO, Dr. Model, Deutsches Hydrographisches Institut, Hamburg. Les index ont été préparés en collaboration avec l'Institut Royal Néerlandais de Météorologie.

La FAO se propose de publier cette classification, lorsqu'elle sera établie, dans les langues officielles de la FAO et de l'UNESCO. En attendant, pour la commodité des utilisateurs de la "Current Bibliography", les chifres de la CDU sont complétés, dans le présent index, par les titres anglais des sujets.

PREPARACION DE ESTE DOCUMENTO

Este documento contiene índices detallados de las reseñas en la "Current Bibliography for Aquatic Sciences and Fisheries" que se refieren a los temas de oceanografía física. Las reseñas se han indicado de acuerdo con el sistema CDU 551.46 Oceanografía Física, recientemente revisado. Copias de esta revisión pueden obtenerse solicitándolas al Presidente del Comité de Clasificaciones de la IAPO, Dr. Model, Deutsches Hydrographisches Institut, Hamburg. Los índices se han preparado en cooperación con el Instituto Real Holandés de Meteorologia.

La FAO proyecta publicar esta clasificación, cuando sea posible, en los idiomas oficiales de la FAO y la UNESCO. Mientras tanto, para comodidad de los suscriptores de la "Current Bibliography", los números de la CDU se complementan, en este índice, con encabezamientos en inglés por temas.
